Global Handwashing Day

Clean Hands are Within Reach

*Clean Hands lead
to a Disease Free
future*

On October 13, 2023; ETPA Foundation observed Global Handwashing Day – a day to push the message of leaving no one behind and thus increasing the awareness on the importance of handwashing with soap as an effective and doable way to prevent diseases and save lives. The mantra of “Clean Hands are Within Reach” to celebrate Global Handwashing Day has been translated to realisation by ETPA Foundation through a meaningful engagement with the children of the NGO “PROJECT WHY”. The engagement with the children was accompanied by demonstration sessions on appropriate methods of handwashing with soap, art& crafts competition followed by a pledge to practice handwashing with soap on a daily basis and thus influencing others to adopt the same practices in their lifestyle.

On a specific note, the celebration involved around 36 children who were not only benefitted through the educational sessions on handwashing but also encouraged to become the ambassadors of positive change, that ETPA stands for.
